About This Game

The New Benchmark in Flight Sim Technology

The North Koreans have crossed the DMZ. Your F-16 squadron has been called for the strike back...

Only the makers of the acclaimed Falcon 3.0 could launch a new era of flight simulators. Falcon 4.0 breaks the sight-and-sound barrier with its cutting-edge graphics, realism, dynamic campaigns and multiplayer gameplay.

Only MicroProse could push the envelope to offer accurate topographical terrain, detailed radar and weapons simulation, hyper-realistic flight models and stunning visuals.

Features:

- The realism in Falcon 4.0 is as intense as the vapor streaming over your leading edge flaps when you crank on the Gs.

-
- You'll recognize your Dogfight team members by their aircraft markings. Of course the guys on the other teams are ready to paint little bull's-eyes over them.
 - At the heart of Falcon 4.0 is the real-time campaign engine, tested and approved by actual F-16 pilots.
 - Falcon 4.0's detailed, accurate topology and stunning graphics break new ground in the world of modern military flight sims.
 - In Falcon 4.0, you'll discover an enormous range of aircraft and ground units - all in chilling detail.
 - Steam Trading Cards included!
